

# Mixed Waste Skip Info

## Advice on loading the Skip

- Heavy metal on the bottom
- Large wood/plastic pieces next
- Bagged material on top
- Do not raise the sides of the skip —keep it a level load
- Unsure give us a call

## What this includes:

- Plastic
- Wood
- Soil, blocks, bricks and stone
- Tiles
- Furniture
- Household recyclables

## Tips— These are chargeable extras

- Electrical equipment i.e. tv's
- Fridges/freezers
- Batteries
- Tyres
- Plasterboard (bagged on top separately)

## What not to put in:

- \* Asbestos (can supply dedicated skip for this)
- \* Food Waste
- \* Hazardous Waste
- \* Gas Cylinders
- \* Liquids/solvents

If any of the above are found in your skip you will be contacted, and extra charges may apply.

If you are unsure of what charges may apply, please contact our support team.

## Accessibility for lorry and skip:

No matter which size skip you choose, they will arrive on the same size lorry. It will require a clearance of 9ft width & 12ft height. Please take into consideration overhead cables and overhanging trees.

## METAL REBATES

If you have any metal for disposal, we can supply you with a skip at a small cost and rebate you the value of the metal.

## Skip Permit:

If you don't have enough space to store a skip on your own land, don't worry. We can apply for a skip permit through the council, enabling it to be dropped on the highway. We always aim to give you a solution to dispose of your waste.

**Skips must be at a level load!**

## Wait & Load

If you have waste ready and waiting to be taken away – we can supply a skip you can fill in 20 minutes, and we can take it away there and then. Quick and easy, no fuss.

WE OFFER A RANGE OF DIFFERENT SIZE BINS.

SUITING YOUR NEEDS.

IF IT'S FOR A DIG OUT OR A HOUSE CLEARANCE
